

Actividad 1

The screenshot shows the JDoodle Online C# Compiler IDE interface. The code editor contains the following C# code:

```
1 using System;
2
3 class Program
4 {
5     static void Main() {
6         //declaracion de variable
7         double pi = 3.1415;
8         double r = 50;
9         Console.WriteLine("valor de pi" + pi);
10        Console.WriteLine("valor de r" + r);
11    }
12 }
```

Below the code editor, the 'Execute Mode, Version, Inputs & Arguments' section is visible. It includes a dropdown menu for 'mono-6.12.0', an 'Interactive' checkbox, and a 'Stdin Inputs' text area. The 'Execute' button is highlighted in blue.

The 'Result' section shows the output of the program:

```
valor de pi=3.1415valor de r=50
```

Below the output, it states 'CPU Time: 0.03 sec(s), Memory: 17520 kilobyte(s)' and 'compiled and executed in 1.265 sec(s)'. A note at the bottom says: 'Note: Please check our documentation, or Youtube channel, for more details.'

The bottom of the browser window shows a cookie notice: 'This website uses cookies to ensure you get the best experience on our website.' with a 'Got it!' button. The Windows taskbar at the very bottom shows the date and time as 9:45 AM on 9/20/2022.
